

As a relatively new member to UCPEA, I've been inspired by my colleagues and our union officers in their work to advocate for each of us. I've often thought about what else I can do to serve my work community here at UConn, and it is an honor to even be considered for the position of VP of Communications.

Drawing on over seven years of communications experience in the music industry and non-profit conservation organizations, I hope to provide timely and accurate information on the successes, challenges and needs of the union to its members. Building on the hard work of previous officers, it is my goal to continue to promote transparency and accountability- trusting in one another is the foundation to our strength as a union. In my view, this office is an important piece of helping us feel connected across all of UConn's campuses. Communication is a two-way street, and with the support of the executive board, I'd like to promote more informal opportunities for members to share their thoughts and ideas on how to further develop the ties of our professional community. Thank you again for the consideration for the position of VP of Communications.
