

I am Monica Lattimer, Assistant Director of Operations, Waterbury Campus. I am seeking the position for Vice President of Membership Services.

I hold a bachelor's in communications from UConn and I recently completed the Leadership Greater Waterbury program.

I have developed, coordinated, and implemented myriad local events including trivia nights, train excursions, and vendor fairs.

Since my time here I have become the Co-Director of WISHFest - an event that hosts the Waterbury Community and schools, in partnership with the City of Waterbury.

I oversee Husky Harvest on our campus. Between grants and donations, we have secured \$102k+. I also oversaw a fundraiser for the retirement of Waterbury's mayor in partnership with the City of Waterbury and UConn Foundation which brought in \$400k+.

One of the things I would do is to have events at each regional campus. This would be beneficial and invite employees to see each campus as part of our efforts as Connecticut's flagship university.

As part of the welcoming and orientation of the new members, I would reach out to them individually in their first week and check back periodically. It can be confusing in the beginning, and having someone available to point you in the correct direction would be helpful.

It would be an honor and my pleasure to serve as your next Vice President of Membership Services.
